DIARY NOTES

25X1A

ADD/A (Colonel White)

2 April 1952

25X1A9a

Met with Messrs. Garrison and [REDACTED] and others from Procurement and OPC to discuss method of submitting requirements. An agreement was reached among ourselves and Mr. Garrison is sure that the Defense Department will go along. Insofar as possible, our requirements which have to be programmed should be submitted to the Department of Defense almost twenty-four months in advance in order to get into the pipe line with their other materials and supplies. Requirements will be submitted by fiscal years and reviewed every ninety days. OPC says that they will have their Fiscal Year 1953 requirements to us by about 15 April and their 1954 requirements by about 15 June. They should then start work on 1955 requirements which would be submitted approximately a year from now.
